## TIJERAS CANYON

ROAD WORK WILL  
BE STARTED SOON

Convict Gang to Be Moved  
From Isleta Late This Week;  
State Engineer Hopes to  
Get Forty More Men.

Work on the Tijeras canyon road will be started within a week, it was learned last night from State Engineer James A. French. The convict gang of road workers, now employed near Isleta, will be moved to the canyon late this week, Mr. French having given his order for the removal yesterday.

There are twenty convicts in the Isleta gang. Mr. French hopes to have the number increased to sixty or seventy for the work in Tijeras canyon, as the nature of the work to be done there would permit the employment of that many to the best advantage. Mr. French was not sure, however, whether he could get enough men from Warden J. B. McMahon of the state penitentiary, to bring the force up to that size.

## To Locate Route.

Mr. French, who arrived here yesterday from Santa Fe, John S. Beavers, chairman of the Bernillo county road board, J. P. Mullen, supervisor of the Montano national forest, through which the Tijeras canyon road runs, and Clyde Walters, of the state engineer's office, will make a trip over the road today. Mr. Walters is to locate the route.

Mr. French will pick the site for the convict camp today. He said it probably would be near Sedillo hill, unless he finds reasons today why it should not be placed there. The road is to be worked on between La Tijera and the Terrazas county line, and possibly at other places if Mr. French finds today that other work is needed. However, this probably will not be the case, as the forest service is understood to have improved the highway this side of Tijera.

## May Treat Most Road.

Mr. French stated last night that the location for the two bridges on this road had already been made. However, he plans to have the places measured again. This will be done soon and the bridges put in while the convict gang is at work. The road work is to be done at the expense of the state, but the bridges are to be built out of the county road fund, which contains sufficient money to pay for them.

The new road built across the mesa, making a straighter route between the end of East Central avenue and Tijeras canyon, may need surfacing, Mr. French said. He will investigate that today also. He has been informed that the sandy bed is too light. This work, if found necessary, also will be paid for by the state.

## Inspect Isleta Road.

The state engineer and Mr. Beavers made a trip over the Albuquerque-Isleta road, which the state has been improving yesterday. Work there is nearly finished. Mr. French and Mr. Beavers said a heavy rain followed by drizzling would put this highway in shape. The surface appears soft in places now but a thorough wetting would cause the adobe and mixture to form a compact and solid crust.

## Dexter Crochet Thread.

The finished pieces displayed in the window of "The Art Shop" have been entered in the contest for the most beautiful, also the largest, piece made of the Dexter crochet thread. Prize winners and prizes will have special display on Wednesday.

LILLIAN LORRAINE  
WILL BE AT LYRIC  
THEATER TODAY

She Will Appear as the Star  
in "Should a Wife For-  
give?" an Interesting and  
Wonderful Production.

Lillian Lorraine, the star of "Should a Wife Forgive?" the next release on the Equitable program at the Lyric theater today only, has developed in this wonderful screen production an entirely different phase of her dramatic ability from that which brought her stage fame as a star in several New York productions. The story is full of tense situations and has a plot in which love, intrigue, treachery, disaster, remorse and the righteous indignation of a wronged wife follow each other in a series of wonderfully beautiful scenes, full of thrilling action. The stage settings are far beyond those of the ordinary screen play in realism, and the absorbing story is presented in a manner which will hold a grip on both the heart and mind of every one who sees it.

WINNERS OF PUREBEST  
PRIZES ARE ANNOUNCED

Cakes and doughnuts that would melt in your mouth were shown yesterday at Grinnshaw's in the contest for the prizes offered by the manufacturers of "Purebest" baking powder for the best specimens baked by the use of their powder. The competition was keen, and some of the best cakes ever seen in Albuquerque were placed on display.

The contest for the first prize for the best loaf cake was so close between Mrs. T. J. Ford, of 524 West Central avenue, and Mrs. Martineau, of 217 West Silver, that each of them was awarded the five dollars offered for first honors. The second prize was awarded to Mrs. C. E. Fairbrother, of 306 South Walter street, who also took first prize for the best layer cake. In the layer cake division Mrs. Ruth Ford, of 169 West Lead avenue, was second and Miss Lucy Hinds, of 621 South Walter street, third. Mrs. William Bryce, of 632 South Edith street, was first in the doughnut contest, with Mrs. Martineau second.

The judges of the contest were Miss Winn, secretary of the Y. W. C. A., and Mrs. D. A. Macpherson and Mrs. John Lee Clarke. The prize winning cakes and doughnuts were auctioned off at Grinnshaw's last night and the proceeds were turned over to the Civil Settlement league.

'HOME WOMAN' LIFE  
HOLDS NO APPEAL  
FOR NANCE O'NEIL

Once upon a time a well-known actress left the stage to, as she expressed it, "knit socks." The experiment didn't last, but at any rate it was made. In commenting upon this recently Nance O'Neil, "The Empress of Stormy Emotions," and the star of the latest William Fox success, "A Woman's Past," which was written by Captain John King and produced by Frank Powell, said:

"To the home woman peace comes in tiny, infinitesimal things that are not worth while. But a woman who is born to do big things could never put up with such a 'rot' as I may express it. Even as a school girl wanted a career, I wanted to see this big, broad, beautiful world. I have accomplished these desires and I feel that I have missed nothing by sacrificing a home life. The home woman is a relic of the cave age—an anachronism."

'MR. DOOLY' TODAY'S  
BILL AT THE CRYSTAL

Beginning with a special matinee today James P. Lee, supported by his excellent company of musical comedy favorites, will present for the first time in this city the laughing skit, "Mr. Dooly." Mr. Lee himself will be seen in the title role, which is the chief comedy part of the play. Frank Vack, Tommy Burns, Miss Madeline Lee, Phyllis Ellis, Marie Barber and Miss Irene Lee is the cast that will support Mr. Lee in the production and help to make "Mr. Dooly" one of the best bills ever produced by the company during its engagement here.

There will be a number of novelty musical numbers introduced in connection with the play that will not interfere with the plot that the comedy of the bill is wrapped up in. "Mr. Dooly" will be presented for today and tomorrow only, when there will be a complete change of bill, scenery, wardrobe and electric effects.

## All new today—Crystal.

PRETTY FLOWERS  
AND LOVELY PLANTS  
FOR THE HOLIDAYS

Rush Orders for Outside and  
Home Consumption Keep  
Big Force at Albuquerque  
Greenhouses Busy.

Yesterday afternoon a representative of the Journal, while on his way to Old Town, dropped off at the corner of West Central avenue and Seventeenth street, and made a call at the "Albuquerque Greenhouses," conducted by Grant Shaw, proprietor. Mr. Shaw, son and who is the active manager of the business, was found busily engaged in getting together an excellent outside order for cut flowers, plants and other Christmas and holiday decorative greens, which was a "rush" order and left the city last night.

Looking up from his cuttings, Mr. Shaw stated that he and a force of helpers have been kept on the move the past two weeks filling outside orders and keeping their fast growing Albuquerque trade in flowers for these holiday times. The Journal man was then piloted through the various departments of the "Greenhouses," and found one of the most complete of its kind, with the richest and most fragrant flowers in bloom, and the prettiest of plants and greens imaginable. Here is a list from which anyone can make a most pleasing selection:

Cut Flowers—Roses, carnations, chrysanthemums, gladioli, ranunculus, extra quantity of red, pink and white carnations, red Richmond roses, and the new Shaver and "Opella" rose in the pink—extra quality and a heavy crop for the holidays. This is the only greenhouse in the west growing them.

Plants—Azaleas in red and pink, cyclamens in reds and salmons; poinsettias, Christmas and Lorraine begonias, Boston and Whitehall ferns, decorative live greens—the largest single shipment ever received in New Mexico—twenty-five cases, thousands of yards of evergreen coping and hundreds of dozens of evergreen and holly wreaths, and they are all "Made-in-Albuquerque," which is in every respect superior to the commission goods so often offered for sale.

"We are, indeed, now, as you can see," said Mr. Shaw, "but we are prepared for any kind of a rush and in case orders right along, however, those who want flowers and plants for Christmas and New Year decorations should not delay until the last moment but get their orders in as early as convenient; then we can give them better service."

AGAIN BUYS REAL  
ESTATE HERE, SHOWING  
FAITH IN ALBUQUERQUE

Juan Candelaria, of Concho, Ariz., known to be the largest individual sheep owner of northeastern Arizona, has a strong belief in the future of Albuquerque, and has demonstrated this belief by his recent heavy investment in real estate in this city. Yesterday Mr. Candelaria purchased lots 1, 2, 3 and 4, block "C," Original Townsite, through the City Realty and Loan company, of this city, this purchase, making Mr. Candelaria's investments here in real estate alone upwards of \$10,000 within the last two years. Mr. Candelaria has spent the winters during the last ten years in cities of California and Arizona, and it is significant that Albuquerque was his choice for placing his money, in preference to the other cities. "The gradual, continuous growth of Albuquerque has appealed to me much stronger than the quick, irregular and hasty growth of some western cities," said Mr. Candelaria, "and, therefore, I have decided to put my money here."

Mr. Candelaria will make Albuquerque his permanent home when he retires from the sheep business, which will likely be within the next two years.

ANOTHER INDUSTRY  
OPENS IN ALBUQUERQUE

A "long-felt want" has just been supplied here in Albuquerque by W. A. Goff. Realizing that a number of local home-makers were sending their old rag-out of town to be woven into useful floorings, Mr. Goff got busy and has just installed one of the latest improved carpet and rug weaving looms. He has given the apparatus thorough tests, and announces that he is now ready to weave genuine old-time rag carpets, colonial rag rugs, portieres, porch pillows, etc. If you have got some old rag and want something nice woven out of them, see Mr. Goff at 265 East Central avenue, or phone 558 and he will call and see you.
